PROFESSIONAL SUMMARY

Results-driven Software Engineer with 3+ years of experience building cross-platform mobile, web, and full-stack applications using Flutter, Angular, React, Next.js, and FastAPI. Experienced in production server deployment — provisioning Ubuntu VPS, configuring Nginx with TLS, and managing Node.js apps with PM2. Proven track record delivering secure, high-performance solutions in agritech, fintech, and cybersecurity, including 40% faster load times, 25% higher checkout conversion, and 95% test coverage across critical modules.

SKILLS

Languages: Python, TypeScript, Dart (Flutter), JavaScript, C, C++, SQL
Frontend: React.js, Next.js, Angular 15, NGXS, RxJS, PWA, Reactive Forms
Backend: FastAPI, REST APIs, JWT Authentication, OAuth2, API Design
Mobile: Flutter, BLoC/Cubit, Provider, Cross-platform Apps
Databases: Supabase, Firebase, PostgreSQL, SQLite, Shared Preferences
Server & DevOps: Ubuntu VPS, Nginx, PM2, UFW, Fail2Ban, Let's Encrypt, GitHub Actions CI/CD, tmux, Netdata, Sentry
Tools: Git, GitHub, Pytest, SQLAlchemy, Pydantic
Platforms: Linux (Kali, Ubuntu), Android, iOS

WORK EXPERIENCE

EFARM – Douala, Cameroon Oct 2023 – Feb 2026
Flutter Mobile Developer / Angular Web Developer

- Developed Flutter mobile app and Angular 15 web marketplace supporting thousands of product listings, improving order completion by 40%.
- Implemented NGXS state management with persistent storage, reducing state-related bugs by 40%.
- Integrated Flutterwave and PayUnit payment gateways with async verification, increasing checkout conversion by 25%.
- Optimized platform performance with PWA architecture, lazy loading, and caching, cutting load times by 40%.
- Built and executed 50+ automated unit tests, achieving 95% test coverage across critical mobile modules.
- Secured platform using JWT interceptors, RBAC route guards, and reactive form validation.
- Deployed and managed production Angular app on Ubuntu VPS — configured Nginx reverse proxy, TLS via Let's Encrypt, PM2 process management, UFW firewall, and GitHub Actions CI/CD pipeline with zero-downtime deploys.

Tech: *Angular 15, TypeScript, NGXS, RxJS, Flutter, Dart, Firebase, SQLite, REST APIs, Nginx, PM2, Ubuntu*

FASBI – Douala, Cameroon Sept 2022 – Mar 2023
Backend Engineer

- Built a secure Todo Management REST API with FastAPI supporting authenticated CRUD operations for multiple users.
- Implemented JWT authentication and OAuth2 login flow, strengthening API security for multi-user access.
- Designed database models with SQLAlchemy ORM, improving data operation efficiency by 40%.
- Developed automated API tests with Pytest, reducing bug resolution time and increasing backend reliability.

Tech: *Python, FastAPI, SQLAlchemy, SQLite, Pydantic, JWT, Pytest*

PROJECTS

- **GodsEye – Cybersecurity Platform –** Full-stack web app (Next.js, React, Supabase) for locating lost phones and checking email/password exposure in known data breaches.
- **EFARM Marketplace Web Platform –** Angular 15 + Flutter agricultural e-commerce system with PWA support, NGXS state management, and multi-provider payment integration (Flutterwave, PayUnit).
- **Agricultural Marketplace Mobile App –** Flutter cross-platform e-commerce app for agricultural trading with integrated payments, BLoC state management, and offline-capable architecture.
- **Todo Management API –** Secure FastAPI backend with JWT authentication, user roles, CRUD operations, and 95% automated test coverage via Pytest.

COMPETITION

- Finalist, GETEC National Competition 2025 – Represented Institut Universitaire de la Côte (IUC) with the Smart Glasses for the Blind project, an assistive technology solution for visually impaired users.

EDUCATION

Institut Universitaire de la Côte (IUC) – Douala, Cameroon
Bachelor of Technology – Software Engineering | Expected: 2025/2026
